allowing several workstations to have the same detailed status of callers and line usage. Full integration with MS Outlook Contacts adds the convenience of working with your favorite PIM. Screen pops, line status, memos, forwarding to pagers, cell phones or email, speed dial buttons, speech and phonebook imports are just some of its many features. Recalls history of any phone number, prints detailed call accounting reports, downloads calls from the hardware that were received when the computer is shut down for weekends and evenings. Requirements: ♦ Multi line Caller ID hardware with RS232 port Limitations: ♦ 21 days trial Software Functionality: Call monitoring software integrates with the multi-line Caller ID hardware for monitoring up to 100 lines. The software does not require any modification to the hardware. All incoming calls are recorded in the program along with a transcription of the caller s Caller ID number and additional notes. The app provides a complete solution for monitoring any number of lines by using only one Caller ID box. The app will be running in the background unless the computer is shut down, so it is available on all terminals as you work. The program is an essential component

System Requirements For Identafone Multi-Line Caller ID Software:

Windows Vista or Windows 7 Internet Explorer 8 Java 6 hours of free time Have you ever seen the sea serpent doing the hula-hoop in the 1960s? Well, that is what the video game Konami's Dr. Jekyll and Mr. Hyde 2 is. And as you may have guessed by now, Dr. Jekyll and Mr. Hyde 2 is a platform game of sorts. You play as the sprite-based heroine, Psymonix, who must traverse Dr. Jekyll's laboratory and
