All Android Tablets, Fire Stick, USB Drivers Apps & Firmware.Q: Magento 2: Setup Product attribute from the DB I'm working with Magento 2 and want to set a product attribute from DB. If I go to the product page and check "options_switcher_attribute_3" there is a value and everything is displayed and saved in my magento db. But when I add a product and I want to set attribute 3 from the database there is no value and it's not saved. How can I accomplish this? Thanks in advance. A: You need to run setup upgrade or setup upgrade and for better understanding you can check this magento official guide link So to setup attribute you need to check below helper file from vendor directory. app/code/vendor/module/Helper/Mysql4/Setup/UpgradeData.php \$setup->getConnection()->insertOnDuplicateKey(\$setup->getTable('catalog_product_entity'), ['entity_id' => \$entityId, 'attribute_
